Our clinical team holds years of experience and a proven track record of fulfilling our patient's aesthetic goals by ensuring the very best of treatment whilst managing the highest level of discretion.

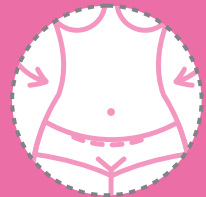

BREAST LIFT

Also known as Mastopexy, a breast lift is the best surgical alternative to reshape breasts and bring back one's breast profile to youthful shape and firm form.

BREAST AUGMENTATION

Breast Augmentation is a well-recognised surgical procedure that helps people increase the size of the breasts involving high-quality breast implants.

TUMMY TUCK

This cosmetic surgical procedure improves the appearance of the abdominal region by removing excess skin and fat.

BREAST REDUCTION

Used to remove excess fat, tissue and skin from the breasts, this procedure is performed in women with large breasts reducing the discomfort as well as resolving issues such as chronic rashes & skin irritation under the breasts chronic back, neck, shoulder and nerve pain as well as lower self-esteem.

ARM LIFT

Also referred as Brachioplasty, the Arm Lift tightens and reshapes sagging or loose skin of the upper arms. Effective for those with loose or hanging skin, for those who have undergone drastic weight reduction.

LIPOSUCTION

Commonly referred to as 'Lipo', this procedure is increasingly preferred to remove excess fat and reshape various areas of the body such as Abdomen, hips, thighs, buttocks, arms and neck.
